PETITION TO WITHDRAW HOLDING OF
ABANDONMENT

Mail Stop PETITIONS
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Applicant respectfully requests that the Notice of Abandonment issued on May 31, 2006 be withdrawn under 37 CFR 1.181(a) for failure to receive an Office Action. A response to the underlying Office Action is being concurrently filed.

This application was filed on November 12, 2003 and the correspondence address listed in the application transmittal sheet was 801 S. Figueroa Street, 14th Floor, Los Angeles, California 90017 and the application was linked to Customer No. 035884 having the same correspondence address. An IDS was filed on May 19, 2005, again providing the same correspondence address and customer number.

However, on November 11, 2005, an Office Action requiring an election of claims was mailed to 11th Floor, 221 N. Figueroa Street, Los Angeles, CA 90012-2601, and as a result of an incorrect mailing address, this office never received the Office Action, and therefore was unaware of the restriction requirement. Because this office was unaware of the restriction requirement, our client was unable to respond. A copy of the transmittal sheets for the filing of the application dated November 13, 2003 and

subsequent IDS dated May 19, 2005 are attached, as well as are copies of the Office Action dated November 7, 2005 and the Notice of Abandonment dated May 31, 2006. All copies are also available through the USPTO Public PAIR web site.

This law firm had maintained its offices at 221 N. Figueroa Street, Los Angeles, CA 90012-2601 prior to February 2002, and since that time, at 801 S. Figueroa Street, Los Angeles, California 90017. At all times since the filing of and prosecution of this application, our offices have been at 801 S. Figueroa Street, Los Angeles, California 90017 as listed in the transmittal sheet of all the papers.

A Petition to Withdraw Holding of Abandonment under 37 CFR 1.181(a) does not require a fee, although if a fee is determined to be required, please charge the fee to Deposit Account No. 502290.

If the above petition to withdraw the holding of abandonment is denied, Applicant respectfully petitions in the alternative under 37 C.F.R. §1.137(a) to revive the above-identified patent application abandoned for failure to prosecute on the basis that the delay in prosecution was unavoidable on the facts as set forth above. If the above petition to revive is denied, Applicant respectfully petitions in the alternative pursuant to 37 C.F.R. §1.137(b) to revive the present application abandoned for failure to prosecute. Please be advised that the delay in prosecution was unintentional. Please charge any fee for this conditional petition to revive, if required, to Deposit Account No. 502290. A duplicate copy of this paper is enclosed.

Acknowledgment of the active status of this application is respectfully requested.

Respectfully submitted,

LEE, HONG, DEGERMAN, KANG & SCHMADEKA

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a heat exchanger, classified in class 165, subclass 150.
- II. Claims 7-10, drawn to a method of manufacturing a heat exchanger, classified in class 29, subclass 890.047.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as roll bonding a pair of sheets, forming slits in the sheets and expanding to form fluid passages.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 3753

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6, drawn to a heat exchanger, classified in class 165, subclass 150.
- II. Claims 7-10, drawn to a method of manufacturing a heat exchanger, classified in class 29, subclass 890.047.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as roll bonding a pair of sheets, forming slits in the sheets and expanding to form fluid passages.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
